

# Tales of Care & Repair

## Rethinking repair for our planet

By gathering stories about fixing everyday things from the UK, India and Brazil. Hosting conversations about the role repair cultures can play in society and climate change and co-creating 'Repair Declarations' to foster local repair mindsets.

### October 2021 UK programme

For registration and further details on all events go to: [tales.repairacts.net](https://tales.repairacts.net)

TALES OF CARE AND REPAIR is led by REPAIR ACTS at the University of the West of England in collaboration with Toxics Link, India and Gambiologia, Brazil. The project is supported by the British Council's Creative Commissions programme – a series of creative commissions exploring climate change through art, science and digital technology.
